**Intentionally Left Blank**

# IANR 8001B

## **Item 2 Description of Governing Classification and Exceptions**

The term "Uniform Freight Classification", when used herein means STB UFC 6000-Series.

---

## **Item 5 Exemption from Regulation Box Car Traffic**

Pursuant to the orders of the Surface Transportation Board in Ex Parte 346 (Sub No. 8), Exemption from Regulation – Boxcar Traffic, 367 STB 424, 367 STB 747, rates, charges, rules and regulations in connection with the transportation of commodities in box cars, to the extent of the exemption from regulation in cited Commission orders, will have no application on commodities transported in box cars to that extent.

---

## **Item 50 Application of Switching Rates or Charges**

Except as otherwise provided, switching rates or charges named herein will cover the handling of cars loaded one way and empty the other. If cars are loaded in both directions, regular rate or charge will be assessed for each loaded movement.

Rates denoted with \* are billable per Wind Platform, except blades. Wind Blades are billed per blade. Wind Idlers, including Buffers or Empties received with components, are billed empty in one direction

**Rates apply on non-unit train traffic. For rates on unit train shipments, please contact IANR Marketing & Sales Department**

---

## **Item 100 Explanation of Terms**

DELIVERING CARRIER: The railroad which causes delivery of consignment to connecting railroad.

DIVERSION/RECONSIGNMENT:

(A) A change in the name of the consignee;

(B) A change in the name of the consignor;

(C) A change in the destination;

(D) A change in the route at the request of the consignor, consignee or owner;

(E) Any other instruction given by consignor, consignee or owner necessary to effect delivery and requiring in addition to or a change in billing, or an additional movement of the car, or both.

INDUSTRIAL SWITCH: Intra-Terminal and Inter-Terminal switching service not immediately associated with road-haul service.

INTERCHANGE TRACK: Tracks on which cars are exchanged between connecting lines.

INTERMEDIATE CARRIER: The railroad which handles the consignment between the delivering and receiving railroad.

INTERMEDIATE SWITCH: Where IANR performs intermediate service between any two carriers.

INTER-TERMINAL SWITCH: Movement from a location on one carrier to the track connection with a different carrier within the limits of the same station.

INTRA-PLANT SWITCH: An Intra-Terminal switch within the confines of the same plant.

INTRA-TERMINAL SWITCH: Movement from one location to another location on the same carrier within the limits of the same station.

PRIVATE SIDING: A track of other than carrier ownership under the exclusive use or control of the owning party.

RECEIVING CARRIER: The railroad which receives consignment from connecting railroad.

RECIPROCAL SWITCHING: The movement of a loaded car from any elevator, warehouse, industry or place of business located on or adjoining any side track (not including team tracks or tracks serving warehouses owned by this company) to any connecting railroad at a junction point when destined to points outside the switching limits, or the movement of a loaded car from any connecting railroad at a junction point to any elevator, warehouse, industry or place of business located on or adjoining any side track (not including team

## IANR 8001B

tracks or tracks serving warehouses owned by this company), when originating at points outside of switching limits.

ROAD-HAUL TRAFFIC: Shipments to or from a point outside the limits of the switching district, except as otherwise provided.

TEAM TRACK: A track of carrier ownership provided for the use of the public to load or unload carload freight.

---

### **Item 105                      Switching Charge on Loaded Cars Held for Instructions**

In the absence of specific provisions, the following will apply:

When on shipper's order, loaded cars are removed from industry or team tracks and held by carrier awaiting instructions, refer to Item 233 of IANR Rules Book 3001E or subsequent publications for applicable charges.

---

### **Item 125                      Switching Charges**

This Item is applicable only for the movement of cars at origin and destination stations. It is NOT for switching to other industries or railroads.

(A) Loads Removed Only: Charge is \$100 per car

(B) Loads Removed and Empties Placed: Charge is \$155 for the first car, and \$30 per car for each additional car coupled in series to the first.

(NO CHARGE FOR PLACING EMPTIES)

(C) Loads Moved to New "Spot": At terminal destination, the charge for moving to a different car for unloading other than the next car lined up in series is \$65 per car. If "skipped" load(s) must be held over to the following day, the loads removed switch charge will be applied as cars are switched for the next day's line-up series.

---

### **Item 130                      Date Of Absorbed Switching Charges**

The absorbed switching charge applicable, whether absorbed in whole or in part, will be the charge in effect on the date of the interchange notice of the loaded car.

---

### **Item 150                      Non Absorption of Intermediate Carrier's Switch Charge**

Unless specifically indicated, all rates in this tariff do not include intermediate switch charges.

---

### **Item 160                      Dimensional Shipments**

For carloads exceeding Plate F equipment (as published in "The Official Railway Equipment Register") or over 263,000 pounds in weight, including any other shipment which requires a special clearance of "Dimensional Movement File" NOT listed below by STCC, please call (319) 297-6000 for pricing.

---

---

**SECTION 2**  
**INTRA-PLANT, INTRA-TERMINAL, INTER-TERMINAL AND MISCELLANEOUS SWITCHING**  
**(See Item 100)**  
**(Rates in Dollars Per Car Except as Noted)**

---

### **Item 2000**

#### **Intra-Plant Switching Movements**

Except as otherwise provided, a charge of \$175 per car will be assessed for each intra-plant movement.

---

### **Item 2150**

#### **Intra-Terminal Switching Movements**

Except as otherwise provided, a charge of \$300 per car will be assessed for each intra-terminal movement.

---

### **Item 2200**

#### **Inter-Terminal Switching Movements**

Except as otherwise provided, a charge of \$300 per car will be assessed for each inter-terminal movement.

---

### **Item 2250**

#### **Moving other cars to execute your request**

Moving other cars out of the way on your track in order to pick up or place requested cars that would not otherwise require movement at that time.

Example: Moving a car that does not have valid shipping instructions in order to access a car with valid shipping instructions.

Except as otherwise provided, a charge of \$175 per car will be assessed for moving other cars to execute your requested movement.

# IANR 8001B

## Item 2251

Any switching not covered in the above definitions will be assessed a \$250 charge per car
